 - c. **Water tower update** (<http://www.sandiego.gov/planning/community/cpc/agendas/index.shtml>). The city water department will pay for the seismic retrofit of the tower, but not other necessary maintenance.
 - d. **I 805 NP Way/University off ramp – Concerns about safety have been referred to CALTRANS by Assembly Person Toni Atkins**
- IX. **Planner's Report**, Marlon Pangilinan, 619.235.5293; mpangilinan@sandiego.gov
 - a. Four elements from the November draft of Community Plan Update are actually considered complete and ready for NPPC review: Public Art, Conservation, Noise/Light Pollution, and Parks & Recreation
- X. **Information Item 1: Historic Element**, Kelly Stanko from SD Planning presenting
 - a. Handout with responses to input thus far distributed, with one update:
 - i. 4210-411 30th St (Craze Burger location). Property owner required to do historic preservation work; determined building had been heavily altered, so will be removed from list.
 - b. Will proposed CPIOZ protect potential districts? The zone wouldn't prevent all alterations, but those that would adversely impact the district would require more oversight.
 - c. Is it difficult to make a determination as to what "adversely impacts a district"? For an established historic district, there's real analysis performed. For potential historic districts will there be the same level of analysis? Unknown what the exact process will be at the City level yet. The City is crafting guidelines for this now, and they will be in line with the Secretary of Interior standards for Historic Preservation.
 - d. Carlson expressed concern specifically for historic bungalow courts not within a historic district. The district is needed to protect individual properties that aren't seen as a group yet. Without designation there is potential for alternation of individual properties that would negate the designation of a group of properties. DSD doesn't inform people that a property can lose designation for something as minor as window replacement.
 - e. All properties 45 years or older, or identified as potentially significant, are reviewed by Historical Resources staff at Planning for potential historic significance when any building permit is triggered for the property. L. Morrison expressed concern about the ability to make changes to properties that detrimentally affect the character, but fall short of requiring a building permit. If such changes are allowed by right, then the regulations and permitting are falling short.
 - f. There are a handful of trees included specifically in historic designations. There is now a separate Board for heritage trees.
 - g. Board requested a map with existing and proposed historic districts displayed together.
- XI. **Information Item 2: The Observatory Theater**, Paris Landon and Ryan Blank presenting
 - a. Provided brief history of the Birch Theater building.
 - b. Discussed community concerns after ownership changed, and efforts to resolve, including:

- i. Noise: soundproofing, no re-entry, quiet signs, security sent into neighborhoods to encourage patrons to leave the neighborhood quietly and quickly after shows.
 - ii. Bookings: at beginning, some acts needed to be booked on short notice, so did not reflect wider intentions. The current line-up is expanded, and includes many community-based events.
 - iii. Parking: This week rolled out cooperative effort with Ace Parking structure. A small fee is included in cost of each ticket, and allows validated parking off neighborhood streets.
 - iv. Safety: hired additional security, including off duty officers. All staff is LEAD and PSO trained. SDPD is kept informed of dates of all major shows.
 - v. Trash: Staff get brooms and gloves outside every night after shows (10-11pm) and pick up trash around venue and 1-2 blocks into residential neighborhoods.
 - c. Emails to NPPC regarding this Information Item were all in support of business
 - d. Public comment from: Bob & Cindy Matherly (neighboring business owners), Andy Hinds, Ann Bui, Andrew Williams, Leah Causman, Tim Mays, Ryan Crockett, Kyle Palniuk, Donna Posin, and Steve Honn. All comments were in support. Theme was that any concerns that may have originally existed have been alleviated by the business's responsiveness and quick action. The care of the building and surrounding grounds has been exemplary, and their community outreach is appreciated.
 - e. Board comments/questions included:
 - i. Congratulations on being the first business to incorporate parking validation into business plan.
 - ii. What is status of liquor license? It's currently being re-evaluated and investigations are ongoing.
 - iii. Poster child for how businesses moving into the commercial/residential area should act.
 - iv. Continuing concerns expressed by people on Ray St about pre-gaming. Request for spreading signage out, and cleaning that area after shows.
 - v. As public funds restored this building, would appreciate seeing even more community events and outreach.
 - vi. Under 21 events have reported issues of kids drinking prior to shows in the parking structure. Would like to see collaborative effort with Ace, Observatory and SDPD to have people ticketed.
